SUMMARY

Aspiring web developer with a strong foundation in computer science and hands-on experience building responsive web applications. Passionate about creating user-focused, performance-driven web solutions.

EDUCATION

Jamia Hamdard University

2024 – 2026

MCA (Master of Computer Applications) - 9.2 CGPA

New Delhi, India

Asim Siddique Memorial Degree College

2022 – 2023

*B.Ed (Bachelor of Education) **Percentage - 83%***

Uttar Pradesh, India

H.P Institue of Higher Education

2019 – 2021

B.Sc (Bachelor of Science) - PCM

Uttar Pradesh, India

TECHNICAL SKILLS

Languages: Javascript

Technologies/Frameworks: HTML, CSS, Tailwind CSS, React.js.

PROJECTS

Currency Convertor | [HTML](#), [CSS](#), [Javascript](#), [ExchangeRate API](#)

- Built a real-time Currency Converter web application using HTML, CSS, and JavaScript integrated with a third-party Exchange Rate API to fetch live conversion rates.
- Designed a responsive and user-friendly interface with dynamic input handling, currency dropdown selection, and instant conversion updates without page reload.
- Implemented asynchronous API calls (Fetch), error handling, and data validation to ensure accurate results and smooth user experience across devices.

Weather Web App | [HTML](#), [CSS](#), [Javascript](#), [OpenWeatherMap API](#)

- Developed a responsive Weather Application using HTML, CSS, and JavaScript integrated with a third-party Weather API to fetch real-time weather data based on user input location.
- Implemented asynchronous API calls using Fetch, dynamic DOM manipulation, and error handling to display temperature, humidity, wind speed, and weather conditions instantly.
- Designed a clean, mobile-friendly UI with input validation and loading states to enhance user experience and ensure smooth performance across devices.

Responsive Shopping Website | [HTML](#), [CSS](#), [Javascript](#)

- Designed and developed a fully responsive one-page website using HTML, CSS, and JavaScript with a mobile-first approach for seamless viewing across all screen sizes.
- Implemented smooth scrolling navigation, interactive sections, and optimized layout structure to enhance user engagement and usability.
- Applied performance optimization techniques, clean semantic markup, and cross-browser testing to ensure fast loading speed and consistent user experience.
